1. Claims 1-8 are allowable over the prior art of record in the application.

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 9 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Independent claim 9 is non-statutory in that it is directed to a computer program product, but it fails to recite a medium on which the computer instructions reside.

Please see the Guidelines set forth in MPEP 2106. In the Guidelines, please especially note section IV.B.1.(a).

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The examiner-cited prior art herewith is of general interest for showing prior art radar collision detection and prediction systems and methods that are similar to Applicants' invention.
